

BioLife Remedies Announces: Official Release of DI-AGRA

VANCOUVER, BC and GUANGZHOU, CHINA, April 19, 2007, BioLife Remedies Inc.
(PINKSHEETS: BLRS)

Bio Life Remedies, Inc. is pleased to announce that DI-AGRA™ will be available for sale on May 2007. DI-AGRA™ is an herbal product developed by the company for men with Erectile Dysfunction from Diabetes.

The President and CEO of the Company, Jack Guo commented, "DI-AGRA™ is developed from a century-old TCM herbal formula used traditionally for men who have developed symptoms of Erectile Dysfunction caused by Diabetes Mellitus; our researchers did extensive research and tests on the formula and identified the herbs that are effective in getting and keeping an erection for sexual activity, also decreasing frequent urination. Erectile dysfunction is a common complication of diabetes. ED is age-related, often developing in men older than 50. Diabetes is also more common in this older age-group. Men with diabetes tend to develop ED 10–15 years earlier than men without diabetes. 50-60% of all men with diabetes over age 50 have some problem with ED".

President of BioLife Jack Guo is excited about the release of this quality new product and looks forward expanding the line of TCM products over the coming year. For more detail information of Di-Agra™ please visit the official company website at www.blfrproducts.com
